DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 10-14, 16, and 17 are rejected under 35 U.S.C. 102(e) as being anticipated by Finch et al (US 6,120,492). Finch et al disclose in Figure 3a a pre-assembled needle/cannula combination including a catheter (10) in fluid combination with the combination, a needle (130) comprising a solid piercing member (132), and a cannula (120) surrounding the needle (130) in a snug fit, but still providing a clearance extending substantially along the length of the needle between the inner wall of the cannula and the outer wall of the needle to allow fluid to be communicated.

Response to Arguments

2. Applicant's arguments filed 10/5/2007 have been fully considered but they are not persuasive. Although Finch et al may disclose using an access cannula which just uses the access needle itself as a penetrating element without utilizing a stylet does not overcome the fact that Finch et al also disclose in Figure 3a an embodiment in which a stylet is used. Furthermore, the drawing of Figure 3 does disclose a clearance between the stylet (130) and cannula (120) between which fluid would be fully capable of flowing.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Catherine N. Witzak whose telephone number is (571) 272-7179. The examiner can normally be reached on Monday through Friday, 8-5 EST.
